

Pam and Kamran Mokhtari at Master Tutoring were immensely helpful in the process of preparing for the ACT. Both offer insight into the type of questions to expect, what pace you should have going through the questions, and what strategies work best for you. Each time I had a session with the Mokhtaris there were only ever two or three other students present allowing for a very personal atmosphere and made it easy for questions to be asked and answered. This one-on-one tutoring allowed for me to be able to focus on my weakness, which is the math section, and work on perfecting the subjects I score highest on which are the English and Reading sections. This experience offered a very personal ACT preparation, something I would not have received from a large ACT prep class.

I went to see Pam & Kamran over a period of six weeks; once a week and three times the week before the ACT. I was able to raise my score from a 25 to a 30. I was astounded that I was able to raise my score 5 points! It was a result of the effort and time I put into preparing with Kamran & Pam. The small tutoring groups allowed for me to ask my individual questions and also to listen to the questions of my peers. It was a great environment to be in and I highly recommend it to anyone who wishes to raise their ACT score.
